

Galleria_View_Tags.lists

```
graph LR; A[Galleria_View_Tags.lists] --> B[Galleria_Auth.getObject]; A --> C[Galleria_Auth.isLogged]; B --> D[Galleria_Session.get]; C --> D;
```

The diagram illustrates a dependency flow. A central node, 'Galleria_View_Tags.lists', is highlighted with a grey background. It has two outgoing arrows pointing to 'Galleria_Auth.getObject' and 'Galleria_Auth.isLogged'. Both of these nodes then have arrows pointing to 'Galleria_Session.get'.

Galleria_Auth.getObject

Galleria_Auth.isLogged

Galleria_Session.get
