

Galleria_Element_Category._appendChildren

```
graph LR; A[Galleria_Element_Category._appendChildren] --> B[Galleria_Element_Category.getId]; A --> C[Galleria_Element_Category.getParent];
```

The diagram illustrates a method call from `Galleria_Element_Category._appendChildren` to two other methods: `Galleria_Element_Category.getId` and `Galleria_Element_Category.getParent`. The source method is highlighted in a grey box, while the target methods are in white boxes. Blue arrows indicate the direction of the calls.

Galleria_Element_Category.getId

Galleria_Element_Category.getParent
